

## **Changes Being Made to ICSA Membership Dues and Payments!**

ICSA is enhancing its dues payment and monthly expense process to make payments easier for all members. Here is what you need to know:

### **Membership Dues Payment Changes for New Members**

Beginning December 3, membership dues for new members will follow a new monthly fee structure:

- **Base Fee:** \$10 per truck, with an additional \$2 per additional truck, capped at \$44 per month.
- **Monthly Charges:** All dues, including membership, telematics, and potential camera fees, will be automatically billed to the card on file.

**Existing members** will begin the new dues process upon **membership renewal**. Note that there are other changes for current members below.

### **Autopay Program**

To streamline payments and reduce missed deadlines, we are incorporating autopay for monthly charges, including membership dues, telematics charges, and camera fees, if any. All members can securely save up to two credit cards on file and will receive emailed receipts for each payment, along with reminders when a card is about to expire.

### **Member Portal Enhancements**

We are adding features to the member portal, including a “Cameras Info” tab, to give carriers more visibility into camera vendors and serial numbers, so each truck’s equipment is easily trackable.

### **Changes for Current Members**

Current members will see two updates:

1. Monthly Payments on Autopay – Starting December 15, current members will pay all monthly payments on autopay. Using the day of your ICSA

anniversary, members will be prompted to login to safecarriers.org to save a credit card, like making an invoice payment. This information will be used for camera subscriptions, hardware, and telematics fees. For example, if your membership expires July 20, 2025, on December 20, 2024, you will receive the prompt to save the credit card information.

2. Membership Dues Update at Renewal – At the time of renewal, current members will transition to the new monthly dues model and will be required to save a credit card for autopay.

### **Action Needed from Current Members**

Starting December 3, ICSA members have the opportunity to [log into their account](#) to save up to two cards on file. ICSA encourages members to complete this task as adding a card will create a seamless signup into the autopay process for all monthly charges applicable.

ICSA has heard your feedback, and we are dedicated to improving your experience. Thank you for being a member. Stay safe out there!
